

VEST™ 2.0

VENOUS EXTERNAL SUPPORT

↔ 4.0cm - 23.0cm Ø 3.0 - 8.0mm Models: 4

CE₀₃₄₄

Cut to size

Product Description

VEST 2.0 is a cobalt chrome external support intended for the preventive treatment of vein grafts which are being used as conduits in patients who undergo a coronary artery bypass grafting (CABG) procedure.

Product Models

Vein Graft Length	Model by Vein Graft Diameter [PN]	
	ØA	ØB
4.0 cm - 16.0 cm	ØA16 [FG066]	ØB16 [FG069]
16.0 cm - 23.0 cm	ØA23 [FG067]	ØB23 [FG070]

3.0 mm < ØA ≤ 5.5 mm < ØB ≤ 8.0 mm

New Features

1. VEST 2.0 can be cut to fit the exact length of the vein graft.
2. VEST 2.0 is more pliable and more compatible with the vein graft geometry.
3. Reduction in number of models. 4 models covering vein grafts lengths of 4.0 - 23.0cm and wide range of diameters between 3.0 - 8.0mm.

Accessories

VEST Selection Tool

A reusable tool for the assessment of vein graft length and diameter, intended for proper selection of the relevant VEST 2.0 model.

Product Code

FG014

VGS Olive Cannula

A reusable cannula for easier implantation of the VEST 2.0 device over the vein graft.

Product Code
