

# FRAME™

EXTERNAL SUPPORT FOR PERIPHERAL VASCULAR RECONSTRUCTION

↔ 30cm - 90cm    ∅ 3.5 - 8.0mm    Models: 12

## Product Description

FRAME is a kink resistant, cobalt-chrom, external support for vein grafts in peripheral bypass and reconstruction procedures, which mitigates the pathological remodeling of vein grafts.

## Product Models

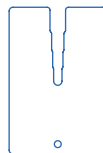

Vein Graft External Diameter		30cm	60cm	90cm
∅A	3.5 - 4.5mm	FG031	FG034	FG037
∅B	4.6 - 5.5mm	FG040	FG043	FG046
∅C	5.6 - 6.5mm	FG049	FG052	FG055
∅D	6.6 - 8.0mm	FG058	FG061	FG064

 Can be cut to perfectly fit the graft length

## Accessories

### FRAME Selection Tool

A reusable tool for the assessment of vein graft diameter, intended for proper selection of the relevant FRAME model.

Product Number

FG073

### VGS Olive Cannula

A reusable cannula for easier implantation of the FRAME device over the vein graft.

Product Number

FG013
